SIMPLE CYBERSECURITY GUIDELINES

Legitimate people won't rush you. If someone is rushing you: **STOP! HANG UP!** Call a trusted friend or family member.

Internet search results don't always lead to legitimate business websites. Be cautious with search engine results! To make sure you're logging in to the correct website, check your statement or bills and type in the website. When in doubt: **Stop what you are doing. Call the company directly.**

Providing personal identifying information to anyone can jeopardize your identity. If someone asks for your one-time password, PIN, online credentials or SSN: **STOP! HANG UP!** Call FNB Bank using a number you know!

FNB Bank won't ask you to send money to anyone (wires, transfers, etc.) If someone is claiming to be from FNB Bank and asks you to send money: **STOP! HANG UP!** Call FNB Bank at a number you know!

Banks, governments, utility companies, etc. will never ask for payment through non-conventional methods. If you're asked to do something unusual (like purchase gift cards, precious metals or digital currencies/bitcoin/crypto), leave your money where it is. **STOP! HANG UP!** Call FNB Bank and contact authorities!

Trust your gut feelings. If something doesn't feel right, it probably isn't. **STOP! HANG UP!** Call a trusted friend or family member.
